

LoopUp's Business Plan makes it easy for participants to join your remote meetings from outside the UK. They simply need to click the join link in the meeting invite and LoopUp will dial out to a phone of their choice, or they can dial in using a local access number.

With the Business Plan, the host pays for international access by each participant on a per-minute basis. Any international access charges are billed monthly to the credit card held on file for the user account. UK dial-out and dial-in access for all participants is unlimited and free.

International dial-out and dial-in access is available for the countries listed below. If a country is not shown, participants can join a meeting by dialling in to the UK access number (but note that participants may be charged for an international call by their carrier).
